ZOOM - Zoom is an online platform that allows the user to host a meeting with many people (up to 100 attendees) for 40 minutes for free OR with the purchase of a license you can initiate a meeting for longer with more participants. A great resource for hosting online meetings with kids/families. Meetings can be video or audio, hosts of the meetings can share their computer screens to share documents and control of other features in the program, there is a text chat feature as well. Boulder County 4-H has a license that will allow us to have countywide meetings and trainings and we will be sharing invites with you all for events. If your club or project group would like to use Zoom, it is free for individual 40 minute meetings. You can download the program to any device and it is fairly intuitive to use. For training and download visit zoom.us. If you have a reason for needing longer than 40 minute meetings, please contact Faith or Brenda and we can discuss the potential of using our countywide license for your club use.

KAHOOT

Kahoot! is used by millions of teachers and educators around the world, and in these challenging times, we want to ensure they can continue to teach. While our free version enables distance learning, we want to make sure educators have all the tools they need to fully engage students outside of the classroom. They have put together a [guide to distance learning](#) and why are providing schools affected by the coronavirus with [free access to Kahoot! Premium](#) for the remaining months of the academic year. <https://kahoot.com/> Get started and create your own quizzes and keep practicing!
