

Boulder County Virtual 4-H Fair Exhibits

While it is understood pictures and videos cannot fully replace live exhibits the virtual fair environment is intended to allow a judge to see and learn about the skills a 4-H member has developed throughout this past year resulting from their 4-H experiences. Please review the following guidelines & tips to prepare for FairEntry upload expectations.

Take photos in a well-lit area. Try to reduce any shadows and glares when possible. Boulder County will accept digital versions or URL based presentations of display boards (i.e. Powerpoint or Prezi), however, Colorado State Fair may not, you will need to upload a photo of your final product when registering.

You will need to do all projects in a family before submitting.
