

## **Helpful Poultry Books and Resources for your Projects!**

Here is the link to where you can purchase the American Standard of Perfection Forty Fourth Edition. Is a great guideline on the standard required for each breed with specific detail.

Another great book for 4-H Members, especially new, is the 4-H Guide to Raising Chickens. This book is no longer in production, but can be purchased used, for very inexpensive online. It is a great resource of the Poultry Projects from beginning to end.

Storey's Guide to Raising Poultry, 4th Edition: Chickens, Turkeys, Ducks, Geese, Guineaes, Gamebirds by Glenn Drowns (2012) Great book on general knowledge of raising all types of poultry.

There is a ton of great online resources as well. Do not forget to check out your project manuals listed on the first section of the Poultry Web Page. Those each have details about each specific poultry project available and is a highly recommended read. Also check out what other states have available. They will have some slight variations of what our state does but is great to see what others do.
