1. Must use your current 4-H or FFA project horse
2. May use one or two hands on the reins, regardless of the legal 4H bit used
3. May change hand used to rein
4. Horse must remain bitted at all times (bridleless riding is not permitted), and one hand must maintain contact with the reins
5. Simple lead changes are allowed. Riders are encouraged to use the lead change corresponding to their Western riding level (for example, Level I and II riders should perform simple lead changes, Level III and IV riders should perform flying lead changes). It is the judge's discretion to determine proper execution of the lead changes.

Required Maneuvers – extra maneuvers may be added but these maneuvers are required:

1. For Level II and above, two spins (360 degrees) each direction. These are not required to be consecutive, but there must be two spins to the right and two spins to the left. For Level I, one spin (360 degrees) each direction, not required to be consecutive.
2. For Level II and above, one large fast circle in each direction (total of 2), and one small slow circle in each direction (total of 2). For Level I, one large fast OR one small slow circle in each direction (total of 2).
3. Two lead changes (L to R and R to L)
4. For Level II and above, one roll-back in each direction (total of 2). Rollbacks are optional for Level I.
5. One stop (sliding stop optional, but completion will be credited).
